Let's rally expecting a new era full of happiness!-Tissa Attanayake

Sinhalese and Hindu New Year arrives at the dawn of spring when people have wealth, harvests have been good, the barns are overflowing and the trees are full of flowers and fruit. However, we Sri Lankans have been destined with an era of poverty, sorrow, chaos and misfortune. Adorning our New Year table with milk rice and other sweet meats according to our family centered 'Hela' customs that enriched and freshened our family connections has been made a challenge.

Being able to wear new clothes that give out a fresh fragrance is another aspiration that majority of our people could not accomplish. I wish our Nation that celebrates New Year in spite of this pain and distress a new era full of happiness. Let's rally in this New Year with optimistic thoughts for a bright future.
